

We've assembled this list to help you load up your mobile device with apps designed to help support your learning, whether it be for your specific program or for keeping all of your work together and on-track.

## GREAT APPS FOR STUDENTS

### Dropbox/Google Drive

Never forget an important file at home again: keep your files on the cloud.  
*Free (iOS & Android)*

### LinkedIn

Network with colleagues and look for job postings tailored to your skills.  
*Free (iOS & Android)*

### CalenMob

Sync your Google Calendar to your device.  
*Free (iOS)*

### Pocket

Found an article you like but have no time to read it? Save it to Pocket for later enjoyment.  
*Free (iOS & Android)*

### Evernote

Take notes, make checklists, then sync them across your devices for maximum productivity.  
*Free (iOS & Android)*

### Adobe Reader

Open up PDFs on the go.  
*Free (iOS & Android)*

### Official George Brown App

This app is great for navigating the school, accessing secure login schedules and grades, important contact information, social media, and library services.  
*Free (iOS & Android)*

### Catchup

'CATCHUP' is a new location-based alumni networking and recruitment platform being developed by a GBC student. It aims to help students and young graduates in finding referral jobs, internships and business opportunities through their school network. *CATCHUP is in private testing mode. Follow its launch at @lets\_catchup.*

## PROGRAM-SPECIFIC APPS
